804. RECORD MAINTENANCE

A. Organization.

1. The administrator shall designate a staff member the responsibility for the maintenance of resident and outpatient records.

2. Resident and outpatient records shall be properly indexed and filed for ready access by staff members.

B. Accommodations.

1. The licensee shall provide space, supplies, and equipment adequate for the maintenance, protection and storage of resident and outpatient records.

2. The facility shall maintain records pertaining to resident personal funds accounts, as applicable, financial matters, statements of resident rights and responsibilities, and resident possessions (provided that the facility has been notified by the resident or responsible party that items have been added or removed).

3. The licensee shall determine the medium in which information is stored. The information shall be readily retrievable and accessible by staff, as needed.

4. Records of residents and outpatients shall be maintained for at least six (6) years following discharge or death. Facilities that microfilm (or use other processes that accurately reproduce or form a durable medium) inactive records before six (6) years have expired shall process the entire record. Records may be destroyed after six (6) years provided that:

5. Records of residents and outpatients are the property of the facility and shall not be removed without court order. As an exception, when a resident moves from one licensed facility to another within the same provider network (same licensee), the original record may follow the resident; the sending facility shall maintain documentation of the resident’s transfer and discharge date and
identification information. In the event of change of licensee, all resident records or copies of resident records shall be transferred to the new licensee.

6. When a resident is transferred from one facility to another, a transfer summary, to include copies of relevant documents, shall accompany the resident to the receiving facility at the time of transfer or be forwarded immediately after the transfer. Documentation of the information forwarded shall be maintained in the resident record.

8. Facilities shall comply with R.61-19 with regard to vital statistics.

C. Access.

1. The resident and outpatient record is confidential. Records containing protected or confidential health information shall be made available only to individuals granted access to that information, in accordance with State, Federal, and local laws.

Records of menus as served shall be maintained for at least thirty (30) days and available for inspection.

805. ELECTRONIC RESIDENT RECORDS

A. Electronic records are subject to all of the standards of this regulation.

1. Retain the hard copy originals of any materials that cannot be electronically stored;

2. Employ an off-site backup storage system as protection in the event that the on-site system is damaged or destroyed;

3. Use an imaging mechanism that is able to copy documents with signatures;

4. Assure that records, once put in electronic form, are unalterable.
C. Electronic signatures may be used any place in the resident or outpatient record that requires a signature, provided signature identification can be verified and an electronic signature may be legally used. Electronic authorization shall be limited to a unique identifier (confidential code) used only by the individual making the entry to preclude the improper or unauthorized use of any electronic signature.
