320 INFECTION CONTROL
Written policies and procedures shall be established for investigating, controlling and preventing infections. Procedures shall be reviewed annually and revised as necessary for effectiveness and improvement. The policies and procedures shall include as a minimum:
- Aseptic and isolation techniques.
- Proper disposal techniques for infected dressings, disposable syringes, needles, etc.
- Prohibiting the use of the common towel, common bath and hand soap, and the common drinking cup or glass.

406 INTENSIVE CARE ROOM
An intensive care room shall be provided for each thirty-five (35) beds or major portion thereof and shall be located near the nurses' station. Each room shall have the standard square footage as set forth in these regulations. The room shall be provided with standard unit equipment and a lavatory with a gooseneck spout and elbow or wrist-action blade-handle controls, and a soap and a towel dispenser. At least one of these rooms is a single room which can be used for isolation.

416 NURSES' STATION
Nurses' stations shall be provided and so designated that they contain a minimum of sixty (60) square feet per each thirty-five (35) bed patient unit, and are not more than one-hundred twenty (120) linear feet from each patient room. The station shall include adequate storage and preparation areas(s), medication, toilet and hand-washing facilities, and sufficient lighting.

4005 Class A Violations
b. The following Class A violations and the points assigned to each are provided and are subject to the conditions set out in Section 4003: 3. Probability of Death or Serious Physical Harm
The following conduct, acts or omissions, when not resulting in death or serious physical harm, but which create a substantial probability that death or serious physical harm to a resident will result therefrom are conditions or occurrences relating to the operation of a long term care facility which are Class A violations.

E Nosocomial Infection
Two thousand five hundred (2,500) points shall be assigned when a facility does not follow or meet nosocomial infection control standards as outlined by regulations or as ordered by the physician.
