A hospital shall designate at least one person as an infection control officer, who shall develop and carry out policies governing the control of infections and communicable diseases.

3. The infection control officer of a hospital shall:
   (a) Develop a system for identifying, reporting, investigating and controlling infections and communicable diseases of patients and personnel of the hospital; and
   (b) Maintain a record of incidents within the hospital related to infection and communicable disease.

4. The chief executive officer, the medical staff and the chief administrative nurse of a hospital:
   (a) Shall ensure that the quality improvement program established pursuant to NAC 449.3152 and the training program for the entire hospital address those problems identified by the infection control officer of the hospital; and

2. A hospital which prepares, sterilizes and stores its supplies and equipment directly shall develop systems and standards that are consistent with:
   (a) The standards for the control of infection established by the infection control officer of the hospital;
