(4) Proposals for new construction, expansion, renovation or substantial rehabilitation of a facility requiring Certificate of Need approval pursuant to 18 V.S.A. §9434 will not be approved by the licensing agency unless the construction proposal includes a plan for elimination or conversion of all three- and four-bed rooms to rooms which accommodate no more than two persons.

(i) The terms "renovation or substantial rehabilitation" shall not be deemed to include routine maintenance or repairs due to normal wear and tear.

(ii) “Routine maintenance or repairs” includes, but is not limited to, furnace replacement, roof replacement, rewiring, and repainting and other improvements that do not alter the appearance or layout of the facility.

(iii) Construction that alters the appearance or layout of the facility, including relocation of walls, partitions, doors, creation or subdivision of rooms, or conversion of a portion of the facility for a different use, shall be considered “renovation or substantial rehabilitation” and not “routine maintenance or repair”.

(b) After consideration of state licensing agency findings, the Vermont Department of Labor and Industry may waive specific provisions of the Vermont Fire Prevention and Building Code which, if rigidly applied, would result in unreasonable hardship upon the facility, but only if the waiver does not adversely affect the health and safety of residents or personnel.
