Nurses' Station & Resident Call System

A. PERSONAL NEED ITEMS: When a resident because of his or her conditions needs a mouthwash cup, a wash basin, a soap dish, a bedpan, an emesis basin, or a standard urinal and cover, that item shall be provided to the resident. This equipment may not be interchanged between residents until it is effectively washed and sanitized.

B. THERMOMETERS: If reusable oral and rectal thermometers are used, they shall be cleaned and disinfected between use.

C. FIRST AID SUPPLIES: Each nursing unit shall be supplied with first aid supplies, including bandages, sterile gauze dressings, bandage scissors, tape, and a sling tourniquet.

D. OTHER EQUIPMENT: Other equipment, such as wheelchairs with brakes, footstools, commodes, foot cradles, footboards, under-the-mattress bedboards, walkers, trapeze frames, transfer boards, parallel bars, reciprocal pulleys, suction machines, patient lifts and Stryker or Froster frames, shall be used as needed for the care of the residents.

(7) Storage of oxygen: Oxygen tanks, when not in use, shall be stored in a ventilated closet designated for that purpose only or stored outside the building of the home in an enclosed secured area. Oxygen storage areas must comply with NFPA 99.

A. ALL FACILITIES: Each facility shall have:

(1) A medicine storage area.

(2) Space for storage of linen, equipment, and supplies.

(3) Utility rooms, which shall be located, designed and equipped to provide areas for the separate handling of clean and soiled linen, equipment, and supplies.

B. Each resident care area on each floor shall have:

(1) A centrally located nurse station located to provide visual control of all resident room corridors; equipped with storage for records and charts, a desk or work counter, operational telephone, and nurse call system as required in Section 7.9.2.75.

(2) A medicine preparation room immediately adjacent to the nurse station with a work counter, refrigerator, sink, and a well-lighted medicine cabinet with lock and space for medicine cart. The room shall be mechanically ventilated.

(3) A soiled utility room with a flush-rim siphon jet service sink cabinet counter, and sink with hot and cold running water. The utility shall be mechanically ventilated and under negative pressure.

(4) A cleaning area or room with a sink with hot and cold running water, counter, and cabinets.
(6) If a kitchen is not open at all times, a nourishment station with sink, hot and cold running water, refrigerator, and storage for serving between meal nourishment. Each station may service more than one nursing

7.9.2.75 NURSE CALL SYSTEM: A nurse call station shall be installed at each resident’s bed, in each resident’s toilet room, and at each bathtub and shower. The nurse call at the toilet, bath, and shower rooms shall be an emergency call equipped with pull cords of sufficient length to extend to within eighteen (18) inches off the floor. All calls shall register at the nurse station and shall actuate a visible signal in the corridor where visibility to corridors is obstructed at the room door. In multi-corridor nursing units, additional visible signals shall be installed at corridor intersections. An emergency call station shall also be provided in any enclosed room used by residents.

A. GENERAL STORAGE: A general storage area shall be provided for supplies, equipment, and wheelchairs.

7.9.2.83 ISOLATION: For every one hundred (100) beds or fraction thereof, facilities shall have available one separate room, equipped with separate toilet, handwashing, and bathing facilities, for the temporary isolation of a resident. The isolation room bed shall be considered part of the licensed bed capacity of the facility.

Shower/Tub Room

(3) One tub or shower for every twenty (20) residents shall be provided. The bath or shower shall be located on the same floor as the residents served. Facilities for showering with a wheeled shower chair shall be provided.

(4) Every tub, shower, or toilet shall be separated in such a manner that it can be used independently and afford privacy.

C. GRAB BARS: Firmly secured grab ban shall be installed in every toilet and bathing compartment used by residents.

D. WHEELCHAIR FACILITIES:

(2) In all facilities licensed for skilled care, a bathtub or shower room large enough to accommodate a wheelchair and attendant shall be provided.
