(2) the person authorized by law to consent on behalf of the resident has consented to the prescription.

(c) Consent to the prescription of psychoactive medication given by a resident, or by a person authorized by law to consent on behalf of the resident, is valid only if:

(1) the consent is given voluntarily and without coercive or undue influence;

(2) the person who prescribes the medication, or that person's designee, provides the resident and, if applicable, the person authorized by law to consent on behalf of the resident, with the following information in a single document identified as being for the purpose of consent to treatment with psychoactive medication:
