6.3 Nursing Administration

...6.3.6 A comprehensive care plan shall be developed to address medical, nursing, nutritional and psychosocial needs within 7 days of completion of the comprehensive assessment. Care plan development shall include the interdisciplinary team that includes the attending physician, an RN/LPN and other appropriate staff as determined by the resident's needs. With the resident's consent, the resident, the resident's family or the resident's legal representative may attend care plan meetings.

7.7.3 The facility shall provide cubicle curtains around each bed in bedrooms occupied by more than one resident.
