Title I. Purpose and Philosophy of Care.

Sec. 101. Purpose.

The purpose of this act is to set uniform, minimum standards of licensure for community residence facilities currently regulated under Chapter 34 of Title 22 of the District of Columbia Municipal Regulations and other facilities when they provide services that assist residents with the activities of daily living. This act creates a new category of licensure called "assisted living residence".

Sec. 102. Philosophy of care.

(a) The philosophy of assisted living emphasizes personal dignity, autonomy, independence, privacy, and freedom of choice. Further, the services and physical environment of an assisted living residence should enhance a person's ability to age in place in a homelike setting by increasing or decreasing the amount of assistance in accordance with the individual's changing needs.

(b) This act shall be interpreted in accordance with the following philosophy of care:

(1) An assisted living residence is a program which combines housing, health, and supportive services for the support of residents aging in place. The function of an assisted living residence is to provide or coordinate personalized assistance through activities of daily living, recreational activities, 24-hour supervision, and provision or coordination of health services and instrumental activities of daily living as needed.

(2) The design of services and environment should acknowledge that a significant number of residents may have some form of cognitive impairment. Services and environment should offer a balance between choice and safety in the least restrictive setting.

(3) Both the program and environment should support resident dignity, privacy, independence, individuality, freedom of choice, decision making, spirituality, and involvement of family and friends.

(4) Residents should be supported to age in place by minimizing the need to move through reasonable accommodation and, when necessary, through coordination and use of home health agencies, hospice, rehabilitation agencies, and other licensed healthcare providers.

(5) Quality, affordable assisted living residence care should be accessible to all individuals residing in the District regardless of income.

Title II. Definitions.

Sec. 201. Definitions.

For purposes of this act, the term:

(1) "Activities of Daily Living" or "ADLs" means activities including eating, bathing, toileting, grooming, dressing, undressing, mobility, and in place transfers.

(2) "Aging in place" means minimizing the circumstances which require a person to move to a different setting when his or her condition changes.

(3) "Assistant Living Administrator" or "ALA" means the licensee, or a person designated by the licensee, who oversees the day-to-day operation of the facility, including compliance with all regulations for licensed assisted living residences.

(4) "Assisted Living Residence" or "ALR" means an entity, whether public or private, for profit or not for profit, that combines housing, health, and personalized assistance, in accordance to individually developed service plans, for the support of individuals who are unrelated to the owner or operator of the entity. "Assisted Living Residence" or "ALR" does not include a group home for mentally retarded persons as defined in section 2(5) of the Health-Care and Community Residence Facility, Hospice and Home Care Licensure Act of 1983 or a mental health community residence facility as that term is used in Chapter 38 of Title 22 of the District of Columbia Municipal Regulations.

(5) "Change of ownership" means the transfer of ownership by an individual, partnership, or association to another and includes transfers of the legal or beneficial ownership of 10% or more of the stock of a corporation that owns or operates an ALR.

(6) "Chemical restraint" means the use of a psychopharmacologic drug for a purpose other than to treat a standard psychiatric diagnosis whose criteria are set forth by the American Psychiatric Association.

(7) "Cognitive impairment" means the loss of those mental processes that orchestrate relatively simple ideas, movements, or actions into goal directed behavior including a lack of judgement, planning, organization, self-control, and the persistence needed to manage normal demands of the individual's environment. "Cognitive impairment" refers to a condition that interferes with decision-making skills or effective communication including Alzheimer's disease, multi-infarct dementia, stroke, Parkinson's disease, and other neurological conditions.

(8) "Functional assessment" means an assessment of a resident's ability to perform activities of daily living, instrumental activities of daily living, and the degree of assistance required, if any.

(9) "Health-Care Licensure Act" means the Health-Care and Community Residence Facility, Hospice and Home Care Licensure Act of 1983.

(10) "Health-Care Protection Act" means the Nursing Home and Community Residence Facility Residents' Protection Act of 1985.

(11) "Healthcare practitioner" means a person licensed as a physician or nurse practitioner.

(12) "Healthcare provider" means a healthcare practitioner, home health agency, hospice, rehabilitation agency, or health management organization.

(13) "In place transfer" means movements that involve changes in position in place. "In place transfer" includes an activity such as moving from a bed to a wheelchair or regular chair, moving from a wheelchair to a toilet, bathtub, shower, or car, and moving from a wheelchair, regular chair, or toilet seat to a standing position.

(14) "Individualized Service Plan" or "ISP" means a written plan developed by the

provider, in conjunction with the resident and his or her surrogate, if appropriate, which identifies, among other things, services that the licensee will provide or arrange for the resident.

(15) "Instrumental Activities of Daily Living" or "IADL" means daily activities such as housekeeping, meal preparation, shopping, money management, and travel outside the ALR.

(16) "Licensee" means any person, association, partnership, or corporation to which a license is issued pursuant to this act.

(17) "Physical restraint" means any manual method or physical or mechanical device, material, or equipment attached to or adjacent to the resident's body, such as mitts or vests, that the individual cannot remove easily and which restricts freedom of movement or normal access to one's own body.

(18) "Physician's statement" means the form approved by the Mayor pursuant to section 802(b).

(19) "Resident" means an individual admitted to an ALR pursuant to title VI.

(20) "Resident agreement" means the admission agreement between the resident, the resident's surrogate, when appropriate, and the assisted living residence.

(21) "Shared responsibility" means a process by which the resident, or the resident's surrogate, and the ALR arrive at an acceptable balance between the resident's desire for independence and the facility's legitimate concerns for safety, where there is a disagreement. The purpose of "shared responsibility" is to provide complete information to the resident and the surrogate so that the parties can arrive at an informed agreement of which services are to be provided and in what manner.

(22) "Shared responsibility agreement" means a formal written agreement that outlines the responsibilities and actions of all parties. The agreement is a process for resolving discrepancies between the individual resident's right to independence and the provider's concerns for the safety and well being of the individual and others.

(23) "Surrogate" means a person designated by a resident to act on the resident's behalf pursuant to law.

(24) "Trained Medication Employee" or "TME" means an individual employed to work in an ALR who has successfully completed the training program developed by the Mayor pursuant to section 906 and who is certified to administer medication to residents.

provide appropriate care to any of its residents.

(c) Inspection of an ALR, or prospective ALR, for purposes of initial licensure or compliance after license renewal shall be conducted by the Mayor following the procedures set forth in section 6 of the Health-Care Licensure Act and the requirements of this act.

(d) If, upon inspection, the Mayor determines that an ALR, or prospective ALR, is in violation of one or more of the requirements of this act, the Mayor shall give written notice of such violation to the ALR, or prospective ALR, within 15 working days of the inspection and may suggest a remedy for each violation.

(g) If the Mayor and the ALR, or prospective ALR, cannot agree on an acceptable corrective action, or if the ALR, or prospective ALR, fails to respond in writing within 15 working days of receipt of the Mayor's notice, the Mayor shall determine what action to take, including a penalty in accordance with this act and give the ALR, or prospective ALR, notice of his or her determination.

(h) The Mayor may inspect an ALR for the purpose of investigating a complaint.

Sec. 307. Restrictions.

(b) Only a licensed ALR may describe, market, and offer itself as such. No other entity, whether licensed or not by the District government, shall describe, market, or offer itself as an Assisted Living Residence without first obtaining an ALR license. Violation of this requirement shall constitute operation of an ALR without a license and shall be subject to penalties in accordance with this act.

Title IV. Sanctions and Penalties.

Sec. 401. Sanctions.

(e) An ALR shall facilitate aging in place to the best of its ability with the understanding that there may be a point reached where adequate and appropriate services can not be marshalled to support the resident safely, making transfer to another setting necessary.

Sec. 605. Shared responsibility agreements.

(a) Whenever disagreements arise as to lifestyle, personal behavior, safety, and service plans the ALR staff, resident or surrogate, and other relevant service providers shall attempt to develop a shared responsibility agreement.

(b) A shared responsibility agreements represents a tool for ALRs to recognize an individual resident's right to autonomy by respecting his or her right to make individual decisions regarding lifestyle, personal behavior, and ISPs. In some cases, a resident's decision may involve increased risk of personal harm and therefore potentially increase the risk of liability by the ALR absent an agreement between the resident and ALR concerning such decisions or actions. In such instances the ALR shall:

(1) Explain to the resident, or surrogate, why the decision or action may pose risks and suggest alternatives to the resident; and

(2) Discuss with the resident, or surrogate, how the ALR might mitigate potential risks.

(c) If, after consultation with the ALR as required by subsection (b) of this section, a resident decides to pursue a course of action, such as refusal of services, that may involve increased risk of personal harm and conflict with the ALR's usual responsibilities, the ALR shall:

(1) Describe to the resident the action or range of actions subject to negotiation; and

(2) Negotiate a shared responsibility agreement, with the resident as a full partner, acceptable to the resident and the ALR that meets all reasonable requirements implicated. The shared responsibility agreement shall be signed by the resident or surrogate and the ALR.

necessitating the immediate transfer of the resident to an acute care facility, the ALR shall immediately notify the surrogate and the resident's healthcare provider of the transfer. The ALR shall provide the surrogate and healthcare provider with information concerning cause of the transfer and the name and location of the acute care facility.

(c) After a resident is transferred pursuant to subsection (b) of this section, his or her return to the ALR shall be determined by the renegotiation of the ISP with the resident or surrogate, the resident's healthcare provider, and the ALR. If, in renegotiating the ISP, the interested parties determine that the resident can no longer safely reside at the ALR, discharge planning shall take place in consultation with the resident or surrogate, the resident's healthcare provider, and the ALR. Under these circumstances the ALR shall waive the 30 day notice requirement.

(d) Before a resident may be discharged on an involuntary basis, the ALR shall provide 30 days written notice to the resident and surrogate of the planned discharge, and make arrangements for the discharge in consultation with the resident, the surrogate, and the healthcare provider. Any involuntary discharge shall conform to the notice and process established in title III of the Health-Care Protection Act.

(e) Although an ALR shall make every effort to avoid discharge, grounds for involuntary discharge may include the following:

(1) Failure to pay all fees and costs as specified in the contract; and
