NAC 449.74525 Dietary services. ([NRS 449.037](#))

...6. A facility shall serve to each patient in the facility at least three meals daily, at such times as are comparable to regular mealtimes within the community in which the facility is located. A snack must be offered to each patient daily at bedtime. Except as otherwise provided in this subsection, breakfast must be served not more than 14 hours after the previous evening meal. If a nourishing snack is served at bedtime, breakfast may be served not more than 16 hours after the previous evening meal if approved by a group of patients organized pursuant to [NAC 449.74499](#).
