1200-08-06-.04 ADMINISTRATION.

...(15) Each nursing home shall adopt safety policies for the protection of residents from accident and injury.

...(19) The nursing home shall provide a process that assesses pain in all patients. There shall be an appropriate and effective pain management program.

1200-08-06-.06 BASIC SERVICES.

(1) Performance Improvement.

(a) The nursing home must ensure that there is an effective, facility-wide performance improvement program to evaluate resident care and performance of the organization.

(b) The performance improvement program must be ongoing and have a written plan of implementation which assures that:

1. All organized services related to resident care, including services furnished by a contractor, are evaluated;

2. Nosocomial infections and medication therapy are evaluated;

3. All services performed in the facility are evaluated as to the appropriateness of diagnosis and treatment; and

4. The facility shall develop and implement a system for measuring improvements in adherence to the hand hygiene program and influenza vaccination program.

(c) The nursing home must have an ongoing plan, consistent with available community and facility resources, to provide or make available services that meet the medically-related needs of its residents.

(d) The facility must develop and implement plans for improvement to address deficiencies identified by the performance improvement program and must document the outcome of the remedial action.

(e) Performance improvement program records are not disclosable, except when such disclosure is required to demonstrate compliance with this section.

(f) Good faith attempts by the performance improvement program committee to identify and correct deficiencies will not be used as a basis for sanctions.

...(3) Infection Control.

...(h) The facility shall document evidence of annual vaccination against influenza for each resident, in accordance with the recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control most recent to the time of the vaccine. Influenza vaccination is medically contraindicated or the resident has refused the vaccine. Influenza vaccination for all residents accepting the vaccine shall be completed by November 30 of each year or within ten (10) days of the vaccine becoming available. Residents admitted after this date during the flu season and up to February 1, shall as medically appropriate, receive influenza vaccination prior to or on admission unless refused by the resident. The facility shall document evidence of vaccination against pneumococcal disease for all residents who are 65 years of age or older, in accordance with the recommendation of the Advisory Committee on Immunization Practices of the Centers for Disease Control at the time of vaccination, unless such vaccination is medically contraindicated or the resident has refused offer of the vaccine. The facility shall provide or arrange the pneumococcal vaccination of residents who have not received this immunization prior to or on admission unless the resident refuses offer of the vaccine.

1200-8-6-.06 BASIC SERVICES.

(4) Nursing Services.

...(j) There must be a facility procedure for reporting adverse drug reactions and errors in administration of drugs.

...(l) Each resident shall be given proper personal attention and care of skin, feet, nails and oral hygiene in addition to the specific professional nursing care as ordered by the resident's physician.

(m) Medications, treatments, and diet shall be carried out as prescribed to safeguard the resident, to minimize discomfort and to attain the physician's objective.

(n) Residents shall have baths or showers at least two (2) times each week, or more often if requested by the resident.

(o) Body position of residents in bed or chair bound shall be changed at least every two (2) hours, day and night, while maintaining good body alignment. Proper skin care shall be provided for bony prominences and weight bearing parts to prevent discomfort and the development of pressure areas, unless contraindicated by physician's orders.

(p) Residents who are incontinent shall have partial baths each time the bed or bed clothing has been wet or soiled. The soiled or wet bed linen and the bed clothing shall be replaced with clean, dry linen and clothing immediately after being soiled.

(q) Residents shall have shampoos, haircuts and shaves as needed, or desired.

(r) Rehabilitation measures such as assisting patients with range of motion, prescribed exercises and bowel and bladder retraining programs shall be carried out according to the individual needs and abilities of the resident.

(s) Residents shall be active and out of bed except when contraindicated by written physician's orders.

(t) Residents shall be encouraged to achieve independence in activities of daily living, self-care, and ambulation as a part of daily care.

(u) Residents shall have clean clothing as needed and shall be kept free from odor.

(v) Residents' weights shall be taken and recorded at least monthly unless contraindicated by a physician's order.

...(aa) Assistance with eating shall be given to the resident as needed in order for the resident to receive the diet for good health care.

(bb) Abnormal food intake will be evaluated and recorded

...(6) Pharmaceutical Services.

(a)...The medical staff is responsible for developing policies and procedures that minimize drug errors.
