

.06 New Construction, Conversion, Alteration, or Addition.

A. Submission of Plans. The plans review cycle normally will consist of a schematic phase, a design and development phase, and a final or construction phase. The applicant or his designated representative shall provide information as required in the plans review cycle.

B. Service Facilities. A system of water supply, plumbing, sewerage, electrical power, garbage or refuse disposal may not be installed or extended until complete plans and specifications have been submitted and approved in accordance with §A of this regulation.
