Examples of fiscal instability include but are not limited to the experiencing of more than one instance of any of the following events or the experiencing of more than one of the following events:

The conference shall be held before a person authorized to issue the order or to make recommendations regarding issuance of the order. A request for an informal conference must be received in writing and must be received by the Division within ten days of the date of the notice of the intent to revoke or deny the license was received by the licensee or applicant. (6) Default Order. If the licensee or applicant fails to request a contested case hearing within the prescribed time period, withdraws a previous hearing request, or fails to appear at a scheduled hearing, the Division may enter an order denying or revoking the license by default. In the event of a default, the Division's file(s) on the subject of revocation or denial automatically become part of a contested case record for the purposes of proving the Division's prima facie case.

(7) Emergency Suspension Order:

(a) When the Division finds that a serious and immediate threat to resident health and safety exists, the Division may immediately suspend a nursing facility license. An emergency suspension order must be in writing. The order may be issued without prior notice to the licensee and without a prior opportunity for a contested case hearing;

(b) Except where the threat to residents is so imminent that the Division determines that pre-suspension notice is not practical, the Division will provide the licensee with a pre-suspension notice and an opportunity to object prior to issuing an emergency suspension order. The pre-suspension order shall:

(A) Describe generally the acts of the licensee and/or circumstances that would be grounds for an emergency suspension order under this rule; and

(B) Describe generally the reasons why the acts of the licensee and/or the circumstances seriously and immediately endanger resident health and safety; and

(C) Identify the person at the Division whom the licensee may contact and who is authorized to make recommendations regarding issuance of the order.

(H) The effective date of the emergency suspension order;

(I) Findings of the specific acts or omissions of the licensee that are the grounds for the suspension, and the reasons the acts or omissions seriously and immediately threaten the health and safety of the residents; and

(J) That the Division may combine the hearing on the emergency suspension order with any other Division proceeding affecting the license, and that the procedures for the combined proceeding shall be those applicable to the other proceeding affecting the license.

(e) If a timely request for a hearing is received, the Division will hold the hearing as soon as practical. At the hearing the Division shall consider the facts and circumstances, including, but not limited to:

(A) Whether the acts or omissions of the licensee pose a serious danger to resident health and safety; and

(B) Whether the circumstances at the time of the hearing justify confirmation, alteration or revocation of the order.

(8) License Expiration. Restriction of Admissions

(1) Purpose. The purpose of this rule is to protect nursing facility residents and prospective residents from threats to their health, safety and welfare, and to help ensure that the attention of facilities with serious deficiencies is directed toward correcting those deficiencies.

(2) Basis for Admission Restriction. When the Division finds an immediate threat to resident health and safety, the Division may order an immediate restriction of admissions, or may immediately restrict the number or type of admissions at the facility. An Admission Restriction Order shall be in writing and may be issued without prior notice to the licensee and without an opportunity for a contested case hearing:

(a) In determining whether to order a restriction of admission under this rule, the Division shall consider:

(A) The needs of the residents and prospective residents;

(B) The severity of the threat to current and prospective residents; and

(C) The history of the care provided by the licensee.

(b) For the purposes of this rule, an immediate threat to resident health and safety may exist when a facility lacks adequate alarm systems including, but not limited to, call bells, fire, door alarm and/or any other means to protect against a threat to resident health and safety;

(c) For the purposes of this rule, an immediate threat to resident health and safety exists when:

(A) The Division finds a pattern of:

(i) Failure to assess or take action to prevent or treat decubitus ulcers, weight loss, infection, dehydration or other changes in the physical condition of residents; or

(ii) Failure to follow physician's orders, including failure to correctly administer medications; or

(iii) Abuse as defined by ORS 441.630, or preventable injuries; or

(B) The Division finds that any other condition or combination of conditions exists which, in the opinion of the Division, constitute an immediate threat to resident health and safety, or a potential threat to new residents.

(3) Impending Admission Restriction Notice. Except where the threat to residents is so imminent that the Division determines pre-

restriction notice is not practical, the Division will provide the licensee with a pre-restriction notice and an opportunity for an informal conference at least 48 hours prior to issuing an Admission Restriction Order. The Notice of Impending Restriction of Admission may be provided in writing, sent by certified or registered mail to the licensee, or provided orally in person or by telephone to the licensee or to the person apparently in charge at the facility. When the notice is delivered orally, the Division shall subsequently provide written notice to the licensee by registered or certified mail. The pre-restriction notice shall:

- (a) Describe generally the acts or omissions of the licensee and the circumstances which led to the finding that an immediate threat to resident health and safety exists at the facility;
 - (b) Describe generally why the acts or omissions and the circumstances create an immediate threat to resident or prospective resident health and safety; and
 - (c) Identify a person at the Division whom the licensee may contact and who is authorized to enter the Admission Restriction Order or to make recommendations regarding issuance of an order; and
 - (d) Specify the date and time the Admission Restriction Order will take effect.
- (4) Informal Conference. If an informal conference is requested, the conference shall be held at a location designated by the Division. If determined to be appropriate by the Division, the conference may be held by telephone:
- (a) With Pre-Admission Restriction Notice. If a pre-admission restriction notice is issued, the licensee shall be provided with an opportunity for an informal conference to object to the Division's proposed action. The Admission Restriction Order may be issued at any time after the informal conference;
 - (b) Without Pre-Admission Restriction Notice. If an Admission Restriction Order is issued without prior notice, the licensee may request an immediate informal conference to object to the Division's action.
- (5) Admission Restriction Order. When an Admission Restriction Order is issued, the Division shall serve the order on the licensee either personally or by registered or certified mail. The order shall include the following statements:
- (a) The licensee's right to a hearing or a statement of the time and place of the hearing;
 - (b) The authority and jurisdiction under which the hearing is being held;
 - (c) A reference to the particular sections of the statute and rules involved;
 - (d) The effective date of the restriction;
 - (e) A short and plain statement of the nature of the matter asserted or charged;
 - (f) That the licensee may elect to be represented by counsel and to respond and present evidence and argument on all issues involved. If the licensee is to be represented by counsel, the licensee shall notify the Division;
 - (g) That the licensee has the right to demand that a hearing, if requested, be held as soon as practical;
 - (h) That if a demand for hearing is not received by the Division within 90 days of the date of the notice of the Admission Restriction Order, the licensee shall have waived the right to a hearing under ORS Chapter 183;
 - (i) Findings of specific acts or omissions of the licensee are grounds for the admission restriction, and the reasons these acts or omissions constitute an immediate and serious threat to the health and safety of the residents; and
 - (j) That the Division may combine the hearing on the Admission Restriction Order with any other Division proceeding affecting the licensee. The procedures for the combined proceeding shall be those applicable to the other proceedings affecting the licensee.
- (6) Posting of Admission Restriction Order. A licensee who has been ordered to restrict admissions to a facility shall immediately post a "Restriction of Admissions Notice" on both the inside and outside faces of each door of the facility through which any person may enter or exit the facility. Such public notices shall be provided by the Division. The notices shall not be removed, altered or obscured until the restriction has been lifted by the Division. Removal of the notice without Division authorization is a Class C misdemeanor.

(7) Hearing:

(a) Right to Hearing. If the Division issues an Admission Restriction Order, the licensee is entitled to a contested case hearing pursuant to ORS Chapter 183;

(b) Hearing Request. The request for a hearing must be received within 90 days of the Admission Restriction Order;

(c) Date of Hearing. When a timely request for hearing is received, the hearing will be held as soon as practical, but not later than 30 days after the request for hearing, unless the Division and the licensee agree to a later date;

(d) At the hearing, the Division shall consider the facts and the circumstances including, but not limited to:

(A) Whether at the time of the issuance of the restriction there was probable cause from evidence available to the Division to believe there were grounds for the Admission Restriction Order;

(B) Whether the acts or omissions of the licensee posed an immediate threat to resident health and safety;

(C) Whether changed circumstances, including implementation of effective systems to help ensure deficiencies causing the restriction do not recur, eliminate the need for continuing the restriction; and

(D) Whether the agency followed the appropriate procedures in issuing the restriction.

(8) Request for Reinspection. When the licensee determines the circumstances causing the restriction no longer exist, and that effective systems are in place to help ensure similar deficiencies do not recur, the licensee may make written request to the Division for a reinspection. The Division will conduct the reinspection within 15 working days following receipt of the written request.

(9) Reinspection.

(a) If the Division finds there is no longer an immediate threat to resident health and safety as defined in this rule, and finds effective systems are in place to ensure similar deficiencies do not recur, the restriction will be lifted. The Division will notify the facility by telephone of the decision to lift or not lift the restriction within five working days from the completion of the reinspection. Telephone notification will be followed by written notification;

(b) If the Division determines an immediate threat to resident health and safety continues to exist after a reinspection, the admission restriction will not be lifted and the Division is not obligated to reinspect again for at least 45 days. A decision not to rescind the Admission Restriction Order shall be given to the licensee in writing and the licensee shall be informed of the right to a contested case hearing pursuant to ORS Chapter 183. Nothing in this rule is intended to limit the Division's authority to visit or inspect the facility at any time.

(10) Exceptions to Admission Restriction Order. While an Admission Restriction Order is in place, the Division, in its sole discretion, may authorize the facility to admit former residents with a right of return or right of readmission. The Division, in its sole discretion, may also authorize the facility to admit new residents for whom the Division determines that alternate placement is not feasible.

(2) BASIS FOR APPOINTMENT.

(a) A trustee may be appointed when a court finds that the health and welfare of facility residents are in jeopardy pursuant to ORS 441.281.

(b) A temporary manager may be appointed by the Division, with consent of the licensee, if the Division determines that the health or safety of facility residents is in jeopardy pursuant to OAR 411-089-0075.

(3) LICENSEE REPAYMENT TO FACILITY FUND. When the Division is required to utilize the Facility Fund to meet expenses of a trustee or temporary manager, the amount used shall constitute a loan to the facility and shall be repayable to the Facility Fund.

(4) FACILITY FUND FEE ASSESSMENT.

- (a) Licensees shall pay an annual fee that does not exceed the annual license fee until the Facility Fund balance reaches \$750,000.
 - (b) When the Facility Fund balance reaches \$750,000, annual fee collection shall be discontinued.
 - (c) When the Facility Fund balance falls below \$600,000, annual fee collection shall be reinstated.
- (5) ALLOWABLE COST. The facility payment described in section (4)(a) of this rule shall be considered an allowable cost.
